## BRING CANXIDA TO YOUR CLIENTS

— PROVEN SUCCESS STORIES —

# Introduction

Candida is a genus of fungi that can cause infection and discomforting symptoms in many areas of the body<sup>1</sup>. The gut is especially vulnerable to Candida overgrowth, where this opportunistic microbe causes mild symptoms that can progress to severe disease, such as infection of internal organs and sepsis<sup>1</sup>. Candida thrives when the body is weak, and depleted immune systems, illness, and hospitalization give Candida an opportunity to grow. CanXida provides four robust formulations that can help to stem the tide of Candida growth and get our bodies back to normal functioning\*. CanXida prioritizes reestablishing digestive health while supporting the immune system and other bodily processes. Importantly, CanXida's formulations contain ingredients scientifically shown to reduce Candida growth and trigger the death of this harmful fungus.

# Supplying CanXida to Meet an Urgent Need

At CanXida, we pride ourselves on our customer service. This means helping clients overcome their problems, listening to them, and implementing their feedback. In this brochure, you will find extensive feedback on how CanXida helped our clients transform their health. Because many of our clients suffered for years (sometimes decades) before finding CanXida, they have urged us to make our products as widely available as possible so that others can find relief from Candida and other issues. You don't need to take our word for it. Here's what our clients have told us:

*"a lot of people need help but at the same time they are lost...reach out to naturopaths... your product is very genuine and the masses need to know."*

**Rachael H. –**

*"get it into naturopathic health stores- commercials-schools- adds in Dr. Offices, medical buildings, hospitals- I wish I knew about this great wealth of info you have way back as a teen!!!"*

**Rachel W. –**

*"Get the word out to non-standard practitioners (naturopaths, integrative doctors, etc)...the people they go to know about it."*

**Rebecca H. –**

*"I think it is important for you guys to have a list of naturopathic doctors who are certified Canxida specialists."*

**Levi F. –**

*"Work together with Naturopath because they the one (who) see patient."*

**Linda K. –**

*"Put it in Health Food stores where it could be readily accessible to people."*

**Fay K. –**

*"I would love to be able to utilize a naturopath but there is so few and far."*

**Linda L. –**

*"Contact naturopaths and make them aware of it"*

**John D. –**

*"I liked the ingredients, especially how they each focus on a different aspect of yeast/fungus overgrowth. My naturopath likes them too!"*

**Laura S. –**

*"I think your product in natural food stores here in USA...could be very intriguing to a lot of health minded people."*

**Teresa F. –**

*"Get Food Co-op/Health Food stores to stock it."*

**Cindy A. –**

*"Make this product available everywhere in stores"*

**Yalitzi C. –**

There is a clear demand for easier access to and education about CanXida. But what makes our clients so adamant about getting CanXida to the people who really need it? To help understand, let's review the four CanXida formulations before providing a deep dive into each and how they have benefited our clients.

# Overview of Products

CanXida provides these four robust formulations to help deal with Candida\* and promote holistic health.

**CanXida Remove**  
(Formula RMV)<sup>2</sup>

**CanXida Restore**  
(Formula RST)<sup>3</sup>

**CanXida Rebuild**  
(Formula RBD)<sup>4</sup>

**CanXida Charge**  
(Formula RCH)<sup>5</sup>

At CanXida, we pride ourselves on the quality of our ingredients. We have taken the time to carefully curate everything that goes into our products, tailoring them to have specific benefits that other products cannot match. These benefits include:

## Broad Range of Activity

Candida and other pathogens are challenging to eliminate from the body. Our ingredients possess a broad range of activity, meaning they can attack different pathogens in different ways\*. This gives CanXida the edge over other products with narrow ranges of activity and brings added benefits such as a lower chance of resistance.

## Minimized Resistance

A significant pitfall of conventional antifungal therapies is the ease with which Candida species develop resistance<sup>6</sup>. Resistant strains pose a global health challenge, and the medical world is struggling to keep up<sup>7,8</sup>. Our natural products have a broad range of activity, which means microbes are less likely to develop resistance.

## Scientifically Proven

Many of our competitors simply copy and paste ingredients from existing supplements, but not us. We've done our research and carefully selected all our ingredients to ensure maximum benefit to our clients. A full breakdown of the science behind our ingredients can be found in our product-dedicated white papers, which you'll find links for below.

# How CanXida's Products Work Together

## CanXida Remove (Formula RMV)

contains all-natural ingredients specifically designed to eliminate Candida and other pathogens from the body\*. Candida can disrupt gut microbiome balance and deplete levels of healthy bacteria, so after it is eliminated, the gut must be repopulated with good bacteria<sup>2</sup>.

## CanXida Restore (Formula RST)

is a probiotic that helps repopulate the gut with good bacteria while providing digestive enzymes to kick-start digestive health. These good bacteria also have anti-Candida effects. The immune system is required for our bodies to deal with Candida; however, Candida can disrupt it due to nutrient scavenging and other mechanisms<sup>3</sup>.

## CanXida Rebuild (Formula RBD)

is a robust multivitamin and mineral supplement that supports immune function and solves nutritional deficiencies that Candida can create. Effective management of Candida means putting a strong preventative plan in place<sup>4</sup>.

## CanXida ReCharge (Formula RCH)

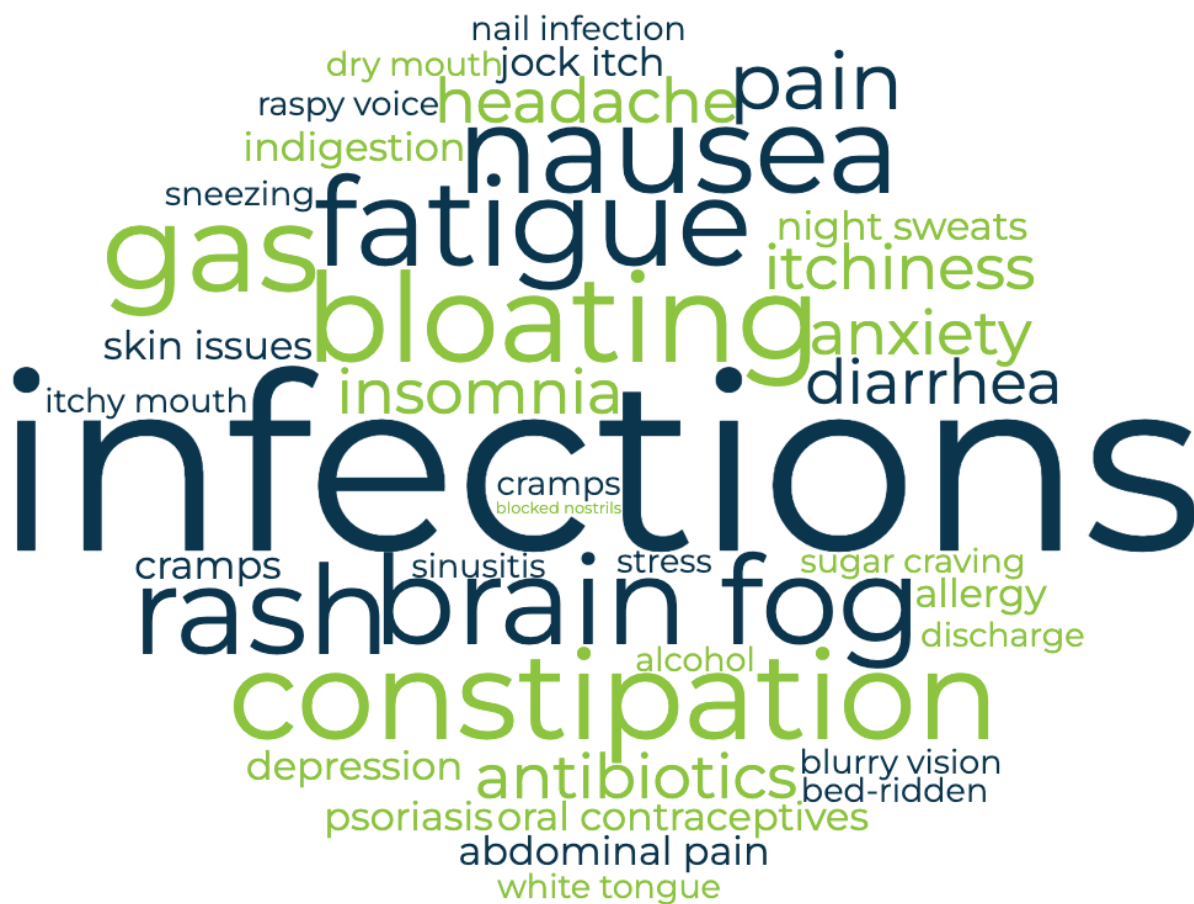

is a wide-reaching powder formulation that supports gut, brain, liver, and metabolic health, in addition to other bodily systems.. This formulation helps support overall health and an active lifestyle that can keep Candida at bay<sup>5</sup>.

Let's look at how our products have helped our clients overcome their Candida-related health issues and allowed them to regain control of their gut health and their lives.

# Customer Testimonials

Candida is linked to a wide range of symptoms depending on the site of infection<sup>9</sup>. Furthermore, there are many risk factors for developing Candida overgrowth. When combined, this makes Candida a problematic diagnosis to pin down for many of our clients:

# Finding a Solution

Many of our clients suffered for years, sometimes even decades, before finding a solution. In many cases, they spent thousands of dollars on medical appointments and therapies that did nothing to improve their situation.

“

*“I began looking into health and found that gut health was a good place to start focusing my attention. I watched videos from the CanXida YouTube channel, researched Candida some more, and I was convinced that I had a huge Candida problem.”*

Sophi G.

*“So I started looking up my own symptoms on YouTube. It started with me searching up dandruff on YouTube and came across a CanXida video. It was like three minutes long, straight to the point. And they mentioned the gut and how you eat, which nobody seriously mentioned to me.”*

Levi F.

*“I came across the CanXida YouTube channel and the videos made a lot of sense. I found the connection between yeast and gut health really interesting, especially the part about how diet and good supplements can work well together.”*

Diane E.

# The CanXida Solution

Here is a snapshot of the improvements our customers saw when taking our products:

*"Within a month, my sugar cravings completely disappeared - I had no idea I could feel that way!"*

*"Rashes and itching have 95% disappeared."*

*"My bowel movements are now quite regular, which they haven't been for a long time. I can breathe a lot easier and my energy levels are increasing."*

*"I have had a great response to CanXida Remove and CanXida Restore, especially for my stomach and my skin."*

*"I no longer have bouts of diarrhea, bloating, or gas."*

*"My UTI is gone! I feel energized and motivated, and my stomach is no longer bloated."*

*"The results until now have allowed me to do normal things again like work, chill with friends, and think about positive things."*

*"Today, I am healthier than I have been in 40 years and I will be 65 in a couple of months."*

*"I have seen great results using CanXida Remove"*

*"I have had a great response to CanXida Remove"*

*"I felt so much better!"*

*"I achieved results within a three-month period! It was amazing."*

*"I know I need CanXida Remove for my gut."*

*"I felt so much better. Of course, I recommend these products."*

*"It only took three weeks to see my skin clearing up! Amazing."*

*"The CanXida Remove is a very gentle, well-rounded supplement."*

*"It has been good!"*

*"I ordered a bottle of Canxida Remove, and I saw great improvement."*

*"When taking Canxida Remove and Restore, my blood sugars are better controlled."*

*"Great experience, especially with the enzymes in Restore. It gives me more energy."*

*"99% of my skin cleared up - no more itching or scratching"*

*"I saw results in the first few months when I started taking CanXida Remove, Restore, and Rebuild."*

*"Taking CanXida Remove and using it for a year, along with Rebuild, really improved my condition."*

*"I would recommend CanXida Remove"*

*"I would definitely recommend CanXida Remove"*

These full **testimonials** and **case study** documents provide more information about how CanXida has improved people's lives.

Now, we will take a closer look at each product and provide an overview of their ingredients.

# CanXida Remove (Formula RMV)

“

*“I have had a great response to CanXida Remove and CanXida Restore, especially for my stomach and my skin.”*

Vaughn M.

”

CanXida Remove (Formula RMV) is a unique blend of all-natural ingredients with scientifically proven anti-Candida effects<sup>2</sup>. These ingredients also have activity against harmful bacteria and parasites. This attribute is why we say that CanXida Remove (Formula RMV) acts as a triple threat against pathogens. Other important benefits of CanXida Remove (Formula RMV) include:

## Sustained Release

For a prolonged period of effect.

## Non-toxic

To significantly reduce the occurrence of side effects.

## Easy-to-swallow

To enable easier adherence.

## CanXida Remove (Formula RMV)

All of CanXida Remove's (Formula RMV) ingredients are important and were selected for their effects against pathogens. However, there are a few ingredients that are central to the anti-Candida effects of this formulation:

- ✓ **Garlic** contains the active ingredient allicin, which has been scientifically shown to have activity against bacteria and yeasts<sup>2</sup>.
- ✓ **Neem** has been used as a herbal remedy for centuries. Its extracts possess anti-inflammatory properties, as well as anti-Candida and anti-aspergillus effects<sup>2</sup>.
- ✓ **Clove** extract contains the active ingredient eugenol, which has potent anti-Candida properties. Against *Candida albicans*, eugenol has been found to possess activity that disrupts the yeast cell wall, which helps to kill this pathogen<sup>2</sup>.
- ✓ **Oregano Oil** has been used as a food preservative for centuries and has been proven to have activity against *Candida*. Furthermore, it can disrupt biofilm formation, which is a mechanism through which *Candida* can evade the immune system and invade through the lining of the gut<sup>2</sup>.

These are just some of the ingredients that can help customers manage their *Candida* issues. What really sets this formulation apart is the breadth of the ingredients we have included. Many of these ingredients are available as standalone supplements; however, few, if any, have combined them into a single product that is available at a fraction of the price of each ingredient individually.

The detailed white paper on CanXida Remove's (Formula RMV) ingredients is available [here](#).

## CanXida Restore (Formula RST)

“

*“I started taking Canxida Restore...which really helped to remove the candida, and I noticed it did help with digestion and going to the bathroom.”*

Heather O.

”

CanXida Restore (Formula RST) is a blend of six probiotic strains and seven digestive enzymes that help to reestablish digestive health and function after Candida infection or overgrowth. Notably, some probiotic strains in this formulation have scientifically backed standalone activity against Candida. This makes CanXida Restore (Formula RST) an ideal combination supplement with CanXida Remove (Formula RMV) for dealing with Candida while maintaining gut health. Other benefits of CanXida Restore (Formula RST) include:

### Time-release

to ensure that a maximum number of good bacteria survive the stomach's acidic environment and arrive in the small intestine at a strong therapeutic dose.

### Easy-to-swallow

to provide comfort and help users stick to the intended dosage.

## CanXida Restore (Formula RST)

Candida overgrowth disrupts gut microbiome balance, essential for our overall health. Furthermore, prolonged antibiotics can trigger Candida overgrowth by depleting the population of good bacteria that keep Candida levels at bay. CanXida Restore (Formula RST) aims to populate the gut with healthy bacteria and provide prebiotics that help these populations thrive. Below are some of the key ingredients of this formulation:

- ✓ **Lactobacillus acidophilus** is perhaps the most studied and prescribed probiotic on the market. This is for good reason, as *Lactobacillus acidophilus* regulates the gut microbiome and produces important metabolites for digestion. The strain also has proven anti-Candida effects, which it mediates by reducing gut pH and producing metabolites that target Candida<sup>3</sup>.
- ✓ **Lactobacillus plantarum** is another commonly used probiotic that maintains a low pH and produces important metabolites. This strain also plays an important role in maintaining the gut's barrier function, which can be compromised by Candida and other pathogens<sup>3</sup>.
- ✓ **Amylase** is a digestive enzyme that breaks down carbohydrates. It helps reduce symptoms of bloating, gas, and abdominal pain<sup>3</sup>.
- ✓ **Serratiopeptidase** is an enzyme not commonly found in digestive enzyme supplements. However, it helps to break down debris caused by yeast and bacteria and can play an important preventative role in leaky gut and autoimmune diseases<sup>3</sup>.

CanXida Restore (Formula RST) contains four other probiotics and five other digestive enzymes, all of which play important roles in promoting digestive health. Once again, CanXida provides a wide range of scientifically backed ingredients, while many other probiotic supplements seldom contain more than one strain. This product is particularly potent when taken with CanXida Remove (Formula RMV).

The detailed white paper on CanXida Restore's (Formula RST) ingredients is available [here](#).

# CanXida Rebuild (Formula RBD)

“

“Taking CanXida Remove and using it for a year, along with Rebuild, really improved my condition. I felt so much better!”

Beverly P.

”

CanXida Rebuild (Formula RBD) is a robust multivitamin and mineral supplement that supports the immune system and can cover the nutritional bases that Candida often depletes. The vitamins and minerals in this formulation are essential for various bodily functions beyond the immune system, including metabolism and the nervous system. A lack of a specific vitamin or nutrient often triggers fatigue.

Other benefits of CanXida Rebuild (Formula RBD) include:

## Antimicrobial Herbs

Nine antimicrobial herbs give this formulation the ability to tackle pathogens\* while also providing immune support.

## Designed for Prolonged Use

The formulation is tailored to prevent discomfort and facilitate easy absorption, meaning customers can see the benefits of long-term use.

## Easy-to-swallow

The tablet formulation makes adherence easy and ensures comfort for long-term use.

## CanXida Rebuild (Formula RBD)

Many people develop Candida overgrowth because they have a depleted immune system, which is an integral part of how our body stops Candida overgrowth in the first place. Good nutrition is essential to having a robust immune system, and Candida can deplete our body of nutrients through various mechanisms. These mechanisms include directly stealing nutrients like iron from our cells and damaging the lining of our small intestine, where many nutrients are absorbed<sup>4</sup>.

All of the ingredients play important roles in the body, but we want to highlight some of the more important ones in CanXida Rebuild (Formula RBD).

- ✓ **Magnesium** is a mineral necessary for a wide array of bodily functions. In the immune system, magnesium activates T-cells, which are important for dealing with Candida. Magnesium is depleted in individuals with gastrointestinal diseases, likely because it is absorbed through the lining of the small intestine.
- ✓ **Vitamin C** is the go-to home remedy for dealing with infection and is important for the activity of different immune cells, including neutrophils and macrophages. It is also essential for the production of collagen, a key component of many tissues that is required for tissue repair.
- ✓ **Folate** is abundant in leafy green vegetables and provides essential molecules for cell growth. In the immune system, folate allows immune cells to rapidly proliferate and deal with invading pathogens.

CanXida Rebuild (Formula RBD) contains 32 bioavailable vitamins and minerals, providing massive coverage of essential nutrients, including trace elements often missing from other multivitamin supplements. The addition of nine antimicrobial herbs establishes CanXida Rebuild (Formula RBD) as a robust solution to immune and nutrient deficiencies that directly target microbes that can cause digestive problems.

A detailed white paper on CanXida Rebuild's (Formula RBD) ingredients is available [here](#).

## CanXida ReCharge (Formula RCH)

CanXida ReCharge (Formula RCH) is a powder formulation containing 36 high-quality ingredients that help support a wide range of biological functions. The formulation was tailored to support immune, gut, liver, and brain function. It also contains amino acids, protein powder, and medium-chain fatty acids, which help to provide energy and support an active lifestyle. Other benefits of CanXida ReCharge (Formula RCH) include:

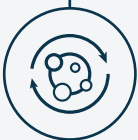

### Multivitamin and Mineral Support

This supplement contains 21 vitamins and minerals, which give nutritional and immune support.

### Natural Ingredients

All of CanXida ReCharge's (Formula RCH) ingredients are naturally sourced, allowing it to provide a more gentle way to achieve your health goals.

### Metabolic Support

This formulation provides minerals and vitamins that can reduce insulin resistance. This is particularly important when dealing with Candida overgrowth, which often causes sugar cravings.

## CanXida ReCharge (Formula RCH)

We designed CanXida ReCharge (Formula RCH) to help support gut and overall health in active, ambitious individuals with sensitive digestive systems or who have a history of Candida. Modern life strains our bodies, and definitive solutions can be challenging to find. This problem is made more difficult by the amount of information available online regarding what supplements to take and how to fuel your body correctly. This formula provides a solution for individuals who want good sources of energy but who are also conscious of their overall health and want to support multiple systems without spending a fortune on several different supplements. The following are a few key CanXida ReCharge (Formula RCH) ingredients that have wide-reaching positive effects on the body.

- ✓ **Glycine** is an amino acid that plays multiple roles in the body. It is required for protein synthesis and controls oxidation. It is also considered a potential therapy for mental illnesses.
- ✓ **Ginger Root Powder** is known to alleviate various digestive symptoms, including heartburn and vomiting. It also has antifungal properties and can enhance immune function.
- ✓ **Tocotrienols Complex Powder (Vitamin E)** brings a variety of benefits. Vitamin E is required for immune signaling and has antioxidant properties. Studies of diet-induced obesity report a role for Vitamin E in maintaining cardiovascular health and liver function.

CanXida ReCharge (Formula RCH) contains 33 other ingredients that support many bodily systems. The powder formulation dissolves in water and is easy for customers to take with them as they go about their day.

# Finding the CanXida Solution

We asked our customers how many products they tried before finding CanXida as a solution to their problems. Many expressed frustration with how much time, money, and effort they spent before finally finding CanXida. Others expressed a wish for their healthcare provider, naturopath, to offer CanXida as an option. Another common response was that many of our clients tried individual ingredients before taking CanXida Remove (Formula RMV) as a comprehensive solution.

Here is a snapshot of their responses when we asked:

## How many similar products or supplements did you purchase before trying CanXida?

*"Several but they were individual ingredients in supplements instead of the one pill remove formulation"*

*Kelly A. –*

*"I couldn't possibly count but it was thousands of dollars worth."*

*Tony D. –*

*"I'd say about 20"*

*Nicklas D. –*

*"Tons. CanXida is the best."*

*David P. –*

*"A lot more than I should have trying to cure myself."*

*Jan S. –*

*"Too many to count. I am 77 and had yeast problems since I was a teenager."*

*Gail B. –*

*"gosh, i don't remember exactly but it was many (10+)"*

*Rosanna K. –*

*"Manysome just were not as powerful, or with number of candida fighting ingredients."*

*Steven B. –*

*"A lot of them! I loved that CanXida combined them all plus a couple more I hadn't thought of."*

*Teresa F. –*

## What made you choose CanXida over other products?

*"I feel like Canxida has everything that is needed in one pill and it was not harsh on my stomach. Some of the other products made me nauseous and sick to my stomach that I tried before."*

**Angela B. –**

*"Testimonial videos and all the free info shared about diet and the side effects of candida/health issues. It felt approachable and an actual solution that wouldn't destroy my gut"*

**Sarah E. –**

*"It was immediately much more effective than taking the herbal supplements for candida individually and constantly having to rotate them for modest improvement. Canxida gave me close to pharmaceutical results."*

**Colby T. –**

*"I saw much more positive results and felt better after using CanXida."*

**Nicole D. –**

*"The research and established reputation."*

**Patrick F. –**

*"It has a broader range (candida & parasites)"*

**Kathy R. –**

*"The information and reviews provided. The ingredients. The testimonies. The email's."*

**Jamie D. –**

*"Ingredients, and support for products was a key factor in choosing Canxida."*

**Cynthia G. –**

*"The amount of research it had, and the reviews. It seems that CanXida is very passionate about helping people and honest about what they put in their products."*

**Shannah B. –**

*"The time and effort put into the products to make sure they are high quality and specific in treating candida."*

**Liana R. –**

# Conclusion
